Schneider-Kreuznach Cine-Xenar III lenses are specifically designed taking lenses for digital cinematography and video cameras and have some unique features:

- PL- and Canon EF mount available for digital and 35 mm film cameras
- 31.5 mm image circle for coverage of 2K/4K/5K cinema
- telecentric optical design for better performance with digital cameras
- Ultra Close Focus (UCF) down to 25 cm/11" measured from sensor plane
- virtually no breathing

- flare suppression through internal light traps
- Schneider-Kreuznach high performance coating
- easily interchangeable calibrated focus scales (feet/meter)
- 100 mm x 0.75 filter thread
- 104 mm outside diameter
- low distortion
- iris with up to 18 blades for an exceptional bokeh effect
- protective lens coating against dust and humidity
- all focus and iris gears are in the same position
