

Divisible stand max. 65 inch

062.3000 Fully divisible stand for flat screens up to 90 inch, 85 kg, single construction

The SmartMetals fully divisible stand is particularly suitable for rental applications. Due to the stand being divided in 4 parts: the base plate, the column in two parts of 95cm and the stand head, the stand and the screen can be transported compact in a flightcase. Furthermore this stand has three separate cable ducts, the screen can be protected from theft by means of a padlock and it can be installed without using any tools. A screen mount with three point coupling bolts should be added, which can be chosen by looking at the weight and mounting pattern of the screen.

Divisible stand max. 65 inch

Features

Maximum length: 1900 mm
Weight: 67.00 kg
