

Expand Production Possibilities and Revolutionize Workflow with Next-Generation 1-Chip DLP™ 4K¹ Projectors

■ Main Features

01 | Dramatic Visuals Take Your Production to New Heights

Quad Pixel Drive creates smooth 4K¹ images and enables 2K/240 Hz³ projection with a latency of 6 ms⁴ or less when used with our optional real-time tracking projection mapping SDK. Evolved Dynamic Contrast achieves higher white brightness and deeper blacks. Rich Color Enhancer revitalizes color expression for accurate artwork reproduction.

02 | Effortless Workflow, Improved Expandability

As production complexity increases, REQ12 Series further expands functionality, interfaces, and options for a smoother workflow. It suits new optional lenses and has an Intel® SDM-specified slot. Import custom test patterns⁵, use NFC function⁶ to save prep time, and streamline adjustment with preactivated upgrade kits for Geo Pro⁷.

03 | New Cabinet Design for Reliable Operation

REQ12 Series features an optical engine and laser light source module compliant with the IP5X Dust Protected (IEC 60529)⁸ standard and a refined liquid cooling system that enable up to 20,000 hours⁹ of maintenance-free projection. Backup Input¹⁰ and Multi Laser Drive Engine enhance reliability and add insurance against interruptions.
